

# Flow Solutions

*"Flowid - Expect more from your chemistry"*

# Flow Solutions

## Flowid's Approach

We identify the best process technology for your chemistries. We start to design in flow on the lab and scale-up to the plant. Our Flow Solutions approach assures the highest benefit from flow for safety, sustainability and profitability.

## Chemistries to go Flow

- Mass transfer limited reactions
- Exothermic reactions
- Gas/liquid reactions
- Precipitation reactions
- Controlled emulsifications
- Photo-chemistry

## Project Phases

- Initial Quick Scan
- Phase I: Feasibility Study
- Phase II: Proof of Concept
- Phase III: Pilot Plant
- Phase IV: Production Plant
- Phase V: Commissioning
